

# One AP 36-0-6

Approximate Spread pattern when applying at 7 lbs per 1,000 sq. ft. (2.5LB N/1000)  
250-300 particles per square foot

## SPREADER SETTINGS

Spreader settings vary by make and model of spreader. It is recommended that individual spreaders are calibrated for the specific product that is to be applied. A walking speed of 3 miles per hour is recommended.

Andersons AccuPro 2000	M 3/4	0 1/2	Q
Scotts R-8	L 1/2	N 1/2	P 1/2

## APPLICATION PRECAUTIONS:

- Keep away from pools, ponds, etc. Do not contaminate potable water.
- Avoid application in high wind conditions to prevent drift and uneven distribution of fertilizer.
- Do not apply with drop-type spreader.
- Many plant nutrients can cause staining of sidewalks. Sweep walkways prior to irrigation. Walkways should be dry at time of application.
